# THE COLLABORATIVE INTRUCTIONAL DESIGN SYSTEM

# (CIDS)

An initiative towards transforming teachers in designing instruction for delivering effective and efficient 21st century learning experiences that inspires learners of all levels towards VUCA world.

## MODULE 8:

## LINK TO RESOURCES

The ASIE Model of CIDS is a flexible instructional design tool. You may choose minimum features/items or add optional items to design your instructional planning to cater to your needs. Most of the items are customizable to formulate the instructional activities.

**LINK TO VARIOUS SHARING RESOURCES *(optional)***

To copy URL/material from the source is subjected to the features of the source *(application).*  It may keep on changing from time to time beyond the control of CIDS.

You may follow your method and creativity to serve the purpose.

- o The Operating System (OS) available on laptops/tablets/and mobile phones will cause differences in how to copy and paste material. You are advised to explore by yourself.
- o The method described below or on the menu of CIDS is for laptop applications in the current situation.

Click on the *Link to Sharing  Resources* button

**(1) Local folder**
